5160m<sup>2</sup>

350m<sup>2</sup>

Villa to renovate for sale in Benissa with large plot, ideal for an investment. The villa is located on a large plot of 5.160m<sup>2</sup> which can easily be separated for the construction of 4 more houses, or to put two luxury villas on very large plots as there are already two separate accesses giving entrance to the plot. The existing villa on the land has about 350 square meters and is in need of a complete reform, giving you options to make it to your own taste. One of the entrances of the plot is at just 350meters of the very well known Cala Advocat with its rocky beach and in lounge bar. Constructing the villa, will give you a nice sea glimpse towards the mediterranean from the pool level and from the second level of the villa an even nicer sea view.
